

List of charts, photograph and other exhibits and their arrangement

List of Charts

1. Physiological and pharmacological regulation of gastric secretion
2. Summary of the Mechanism and sites of action of chemotherapy in neoplastic diseases.
3. Cephalosporin Generations
4. Composition of oral rehydration therapy
5. Composition of ringer lactate.
6. Conventional preparation of insulin
7. Representation of ANS and effector organs.
8. Neuromuscular junction of myasthenia gravis.
9. Subtypes of Muscarinic receptors
10. Subtypes of Nicotinic receptors
11. Museum show case index
12. Estimation of blood glucose by modified Nelson Somogyi method
13. Mechanism of action of oral Hypoglycemic agents
14. Mechanism of action of cotrimoxazole
15. Spectrum of activity of cephalosporins.
16. Classification of Antihypertensive agents.

List of Posters

1. Diabetes
2. Oral hypoglycemic agents
3. Glucose tolerance test
4. Classification of Diabetes mellitus
5. Difference between Diabetic Coma and Hypoglycaemic Coma
6. Standard Height for Indian Men and Women
7. Detection of Diabetes mellitus.
8. Drug dosage forms.
9. Tuberculosis
10. Stop antibiotics (2) Charts
11. AIDS
12. Hepatitis B (8) Charts
13. Family De-worming (4) Charts
14. Rabies vaccine
15. Adverse drug effects and drug toxicity in Pregnancy and lactation
16. Vasodilators (cal. Antagonists)

List of Photos in Museum

1. Autonomi c Warfare
2. Sample Pedigree
3. Cerebrospinal Meningitis
4. Burns
5. Myasthenia gravis
6. Vertigo
7. Chicken Pox
8. Small pox
9. Septicemia
10. Diphtheria
11. Measles
12. Rheumatic fever
13. Pellagra
14. Acute Myocardial infarction
15. Cough
16. Exophthalmos goitre
17. Myxoedema
18. Diabetes
19. Amoebiasis
20. Heart
21. Headache
22. Shock
23. Congestive heart failure

List of Photos of Scientists

1. Joseph Von Mering (1849-1908)
2. William Withering (1741-1799)
3. Rudolf Magnus (1873-1921)
4. Dr.RudolphBuchhim (1820-1879)
5. Daniele Bovet (1907)
6. Thomas Richard Fraser (1841-1920)
7. Paul Ehrlich (1845-1915)
8. Best and Banting (1921)
9. Alexander Fleming (1928)
10. Dr. Morton
11. Paracelsus
12. Galen
