GOVT. MEDICAL COLLEGE, AURANGABAD

Welcomes You...
INTRODUCTION

Department of General Surgery at Government Medical College Aurangabad is a postgraduate teaching department affiliated to Maharashtra University of Health Sciences Nashik (MUHS).

It takes seven post graduate residents for MS general surgery course every year. It caters largely to people from Marathwada region. Being one among only three Government Medical College hospitals in this region comprising seven districts.

The department examines approximately over 100,000 patients each year approx 275/day. It performs about 6000 major and 12000 minor surgical operations every year.

MISSION:

The Department of Surgery's core mission is to provide health care through scientific, evidence based clinical services and research,

To produce best future surgeons by quality education and research as clinicians, educators and researchers - we strive to foster a rich environment for our patients, students and staff.

Located in the historic city of Aurangabad the capital city of Marathwada region, our department has four units, comprising of 15 full time faculty and 21 resident doctors.

We are an established department since 1962 with roots in innovation and quality. A variety of therapeutic, interventional surgical, minimal access, diagnostic and endoscopic procedures are performed.

We have a dedicated 12 bed trauma ICU and for meticulous care of huge load of trauma cases.

We have a best in class ESWL machine installed in our department for Noninvasive treatment of urolithiasis.
The department has a very active teaching schedule for residents enrolled for MS Surgery programme, MBBS undergraduates, BDS undergraduates, BSc Nursing and BPMT students.

**VISION:**

The department is striving to expand its services, we are focusing on sophistication of services, increasing of annual intake of postgraduate seats, increasing the department faculty strength, development of subspecialties like surgical gastroenterology, advance minimal access surgery, coloproctology, surgical gastroenterology, coloproctology, paediatric surgery and organ transplant services.

In future we have plan to make state of art facilities for advance minimal access surgery, surgical gastroenterology, coloproctology, paediatric surgery and organ transplant services.

We have already started cadaveric non transplant multiple organ retrieval. We are first to start this service at a Government Medical College hospital in the state of Maharashtra.

We are in the process of setting up a surgical skills lab.
