Department of Pediatrics was established in the year 1965 as an independent department.

The Pediatric wing was started in 1963. In 1969, pediatric wards were shifted to wards 24 and 25, where it exists today. Around the same time, a special premature baby unit was started close to the labor room

Dr. V.N. Ingle was appointed as the first professor in Pediatrics in 1970.

The department was recognised for

- DCH (CPS of Mumbai) in 1965.
- DCH of BAMU in 1967.
- MD Pediatrics in 1969.

Dr. Jacob from the UK visited the department on behalf of WHO in 1969 for 3 months. The University of Bristol UK recognized the department for training undergraduate students of Bristol University on a reciprocal basis.

In 1983-84, three workshops on neonatology, which trained doctors from districts all over India, were organised on behalf of Govt. of India and WHO. During this period, the department acquired incubators, radiant warmers, air conditioners from UNICEF and upgraded the neonatal care setup.

Dr H.B.Dahat joined as Professor in Pediatrics in 1986. The same year, this region witnessed the Polio epidemic, and the Department of Pediatrics was praised for the work done during an epidemic.

Dr. R.V.Borgaonkar joined as a Professor in May 1998. She took initiative in setting up level 3 neonatal care setup in the department.

Dr.R.N.Nakalgaonkar joined as a Professor in June 2001. But his sad demise in June 2005 left the department in deep shock.

Over the years many renowned paediatricians like Dr P.S.Patil [senior], Dr Mukhedkar,

Dr PD Gujrathi, Dr Khobragade were members of the department and contributed to its development. Up till now over 175 students have completed postgraduate courses from the department.

At present department have 4 units, 120 beds, with level 2 NICU and well-equipped 16 bedded PICU catering patient care services over 40,000 outdoor patients and more than 10000 indoor patients including intensive & sub-speciality services in central India as tertiary care referral hospital every year.
