# **DEPARTMENT**

## About the department

- Government Medical College, Aurangabad has been established in the year 1957.
- Department of Orthopaedics, Government Medical College, Aurangabad came into existence in 1981. Prior to that it was a part of Surgery Department.
- The first Post-graduate student of Diploma in Orthopaedics passed out in 1983 and M.S. Orthopaedics in 1984. From the beginning till date more than 150 students have passed out from this department. They are working in leading institutions of the country and abroad and spreading the name and fame of our Institution.

- The Department is functioning as a full-fledged department with total bed strength of 120 patients spread over 3 wards - male, female and spinal injury centre.
- **The magnitude of department's service to the population is amply exhibited by the fact that in last one year it has seen that on an average 25000 patients in outpatient and admitted around 1800 patients**
- **About 2100 major operations and 4500 minor operations (including day care operations) have been done.**
- **Major strides have been taken in the management of traumatic patients including complex fractures and spine surgeries which are done in both open and endoscopic manner and also patients who require replacement surgeries (Hip, knee, Elbow).**
- There is a well-equipped and well-staffed Artificial Limb Fitting Centre in the department.
- There is a well-equipped, well-staffed Physiotherapy department catering to the rehabilitation of post-operative patients.
- The District Disability & Rehabilitation Centre was established under the Department of Orthopaedics in the year 2001 wherein callipers, wheelchairs, tricycle and artificial limbs are distributed to the patients below poverty line and other affordable patients at throw away price.
- The department of Orthopaedics, G.M.C.H. Aurangabad, is well known and patients are coming for treatment from the whole of Marathwada region and also from far-off places in Vidarbha and Khandesh.
